Korczew Community (PL)

GRANT AWARDED

1 652 119,09 EUR

The necessity of improvement the level of safety in the filed of accidents caused by fires of households, forests areas, chemical contaminations, traffic accidents, food, epidemiological and ecological threats were identified as the main problems. Purchase of the equipment and ensuring the possibilities to increase qualifications of fire-fighters will contribute to the achievement of the project goals, among them: creation of training complex in Poland and Ukraine, creation of an equipment preparation base, creation of a regional base of extinguishing agents, modernization of control station in Poland, purchase of 7 fire trucks and equipment for them.

Project will have tangible impact on target groups by improving their technician abilities and providing the infrastructure for trainings of new fire fighters, additionally the educational action will contribute to promoting appropriate attitudes in dangerous situations.

OUTPUT INDICATORS:

Population benefiting from fire protection measures services [persons] - 6 393 782

Number of security institutions cooperating across the borders – 5

Number of events concerning emergency situations /safety / security - 4

Number of participants of events devoted to security /safety issues and to emergency situations -300

Number of specialised equipment purchased for security/rescue institutions - 188

Number of specialised vehicles purchased for security/rescue institutions - 7

RESULT INDICATORS:

Reduction of waiting time for safety and security services response [minutes]:

Baseline value - 5

Target value - 4

BENEFICIARY 2
Mountain Volunteer Search and Rescue - Bieszczady Group (PL)

BENEFICIARY 3
Municipality Ustrzyki Dolne (PL)

GRANT AWARDED
1 753 889,89 EUR

The project refers to the lack of immediate and effective help for people in Bieszczady Mountains on territories of both Poland and Ukraine. The woodland and the wilderness of Bieszczady strongly impede rescue actions. Implementation of the project will result in providing high-security level in cross-border region of Bieszczady in Poland and Ukraine. Partners will coordinate security actions and cooperate with Polish and Ukrainian security services. The overall aim of the project SOSRESCUE is to create the centre to reduce mobilization time and increase effectiveness of cross-border rescue actions in Bieszczady region.

In order to obtain this goal Beneficiaries will create coordination and training center by modernizing ex-school building and adapting Ukrainian Beneficiary's quarters. The staff of Beneficiaries will be equipped with rescue, evacuation and medical equipment. They will be educated during complex training courses and simulated rescue actions. It is planned also to organize public meetings for citizens to raise awareness about rescue actions, proper behavior in mountains, relevant reactions to man-made and natural dangers and communication with rescue services.

OUTPUT INDICATORS:

- Population benefiting from fire protection measures services as direct consequence of the support [persons] - 5 475
- Number of security institutions cooperating across the borders - 3
- Number of events concerning emergency situations /safety / security – 24
- Number of participants of events devoted to security /safety issues and to emergency situations – 360
- Number of specialised equipment purchased for security/rescue institutions – 125
- Number of specialised vehicles purchased for security/rescue institutions – 7
- Number of developed/improved systems of disaster prevention/monitoring /response/recovery – 1
- Number of awareness raising initiatives regarding emergency situations - 8

RESULT INDICATORS:

- Reduction of waiting time for safety and security services response [minutes]:
- Baseline value – 240
- Target value – 190

Priority 3.1. Support to the development of health protection and social services

LEAD BENEFICIARY

Mazovian Voivodeship Hospital in Siedlce Ltd (PL)

BENEFICIARY 1

Minsk Regional Clinical Maternity House (BY)

GRANT AWARDED

1 950 000,00 EUR

The aim of project is to improve access to high quality gynecological-obstetric and neonatal care in Minsk Oblast and Siedlce subregion. The development of healthcare in the Polish-Belarusian borderland area will be achieved in result of improvement of infrastructure and medical equipment, expanding the range of medical services and implemented health programs in the field of prenatal and neonatal.

Planned renovation of medical rooms in Mazovian Regional Hospital in Siedlce will allow to create in this building such units as: school of childbirth, clinic of gynecology, obstetrics and neonatal workshop of early post-partum and urogynecological rehabilitation, clinic of posture defects and clinic of hips defects. The development of Hospital in Minsk will foresee the purchase of 30 medical recorders, as well as 46 apparatuses of home CTG and a medical car for transportation of doctors/midwives to patients, creation of IT network for use in obstetrics (purchase of equipment and installation).

OUTPUT INDICATORS:

- Population covered by improved health services – 300 000 persons
- Number of events supporting the development of public health – 4
- Number of modernised/improved medical facilities (e.g. hospitals, hospices etc.) - 2
- Number of purchased specialized medical equipment – 73
- Number of medical / prevention research / research /treatment programmes organised – 4
- Number of participants of the events supporting the development of public health – 50
- Number of purchased medical vehicles – 2
- Number of new or improved health care services - 2

RESULT INDICATORS:

Enhanced access to health care and social services [persons]:

Baseline value – 0

Target value – 300 000

Regional Headquarters of the State Fire Service in Rzeszow (PL)

GRANT AWARDED

1 408 921,12 EUR

Crossborder Ukrainian-Polish Carpathian region is characterized by unique cultural and natural potential but at the same time the level of accessibility within the region is very low due to the mountain landscape on the one hand and low development of road infrastructure on the other. Therefore, the response time to emergencies in mountain areas is longer, than in neighboring lowland areas.

The overall aim of the project SECINCARP is to increase the security level in cross-border region by means of strengthening capacities of regional fire and emergency institutions to address common security challenges. In order to obtain this goal on the Ukrainian side of the border purchase of 8 fire-rescue vehicles of various technical levels together with fire-resistant clothing for firefighter's teams is planned. On the Polish side of the border specialized building - smoke chamber will be constructed and equipped. Moreover, joint strategy for disasters prevention and response in the Carpathian region will be developed and number of trainings for representatives of regional emergency and fire services organized.

OUTPUT INDICATORS:

Population benefiting from fire protection measures services as direct consequence of the support [persons] – 1 825 000

Number of security institutions cooperating across the borders – 4

Number of events concerning emergency situations / safety / security – 7

Number of participants of events devoted to security / safety issues and to emergency situations – 300

Number of specialised vehicles purchased for security/rescue institutions – 8

BENEFICIARY 1

Independent Public Health Care Centre in Łosice (PL)

GRANT AWARDED

857 359,62 EUR

Insufficient access to medical services in the border regions of Brest Oblast and Łosice Powiat is an obstacle for sustainable development of these border regions' potential. Better health service conditions as well as general health of citizens are the base of sustainable development.

The overall aim of the project is the expansion of access to health care and improving the quality of health services for the population of Belarusian-Polish borderland. In order to obtain this goal, upgrading of oxygen supply and distribution systems in both hospitals participating in the project is foreseen. Furthermore, specialized medical equipment will be purchased for the hospital in Łosice. Another block of activities will be connected with development of palliative support. These activities will result in resupply of palliative care departments, creation and equipping of "Club of Relatives" in palliative department in Brest, organization of voluntary movement. Healthy lifestyle promotion campaign and experience exchange undertakings will also be held within the action.

OUTPUT INDICATORS:

- Number of population covered by improved health services [persons] - 312 000
- Number of population benefiting from the newly created or improved social services [persons] – 300
- Number of events to support the development of social services – 6

GRANT AWARDED

1 946 099,22 EUR

The idea of the project is to provide on both sides of the PL-BY border necessary services for the solution of key problems of people with autism. The overall objective of the project is to enhance the security of people with autism and their families in cross-border area of Brest Oblast (BY) and Bialski sub-region (PL). This will be achieved through increase the access to infrastructure of social and health care services.

The Belarusian Partner will implement the first in the Republic of Belarus Specialist Centre for Assistance to Persons. On the Polish side it is planned to build a school that prepares employees, an Environmental Self-Help House and training studios with the possibility of transforming it into a house of permanent residence for adults with autism. Infrastructure activities will be complemented by a wide range of soft measures, such as conferences, training courses, study visits. The project will help to exchange know-how, integrate knowledge, scientific research, and methodological experience in the sphere of education of children and youth with ASD of both countries.

OUTPUT INDICATORS:

- Population covered by improved health services [persons] - 500 000
- Population benefiting from the newly created or improved social services [persons] – 400
- Number of events to support the development of social services – 7

Grodno regional department of the Ministry for emergency situations of the Republic of Belarus (BY)

BENEFICIARY 2

Grodno District Executive Committee (BY)

GRANT AWARDED

1 022 696,77 EUR

Hazards and emergency situations in border regions require from emergency services on the both sides of the border to deal with specific risks and vulnerabilities. The overall aim of the project is strengthening emergency management and civil protection across Belarusian and Polish cross-border area. In order to obtain this goal number of infrastructure, investment and soft undertakings will be conducted.

Construction works will be conducted on the fire station of Dobrzyniewo Duże in Poland and on the newly-created fire station in the town of Sapockin in Belarus. The firefighting units from both sides of the border will be provided with specialised equipment, such as heavy firefighting vehicles with additional equipment, rescue boat, trailer for boat delivery, etc. In order to improve the firefighting staff skills joint trainings for emergency services of cross-border area will be conducted. Elaboration of cross-border emergency management plan and creation of cross-border emergency management network, planned within the action, are aimed at further strengthening of cooperation between the fire-fighting units of both countries.

OUTPUT INDICATORS:

Number of population benefiting from fire protection measures services as direct consequence of the support [persons] – 10 000

Number of security institutions cooperating across the borders – 2

Number of events concerning emergency situations /safety / security – 5

Number of specialised equipment purchased for security / rescue institutions – 4

Number of participants of events devoted to security /safety issues and to emergency situations – 100

LEAD BENEFICIARY

Regional Specialist Hospital in Biala Podlaska (PL)

BENEFICIARY 1

Brest Regional Hospital (BY)

GRANT AWARDED

1 826 819,91 EUR

The common challenge of the Programme area is increased incidence of infectious diseases, i.e. HCV and HIV/AIDS. Due to the possibility of uncontrolled increase in incidence along the cross-border transport corridor (large streams of travellers), hospitals in the area must become epidemiological filters. The overall objective of the project is increase of epidemiological safety of residents living at the border area, improved accessibility of health services and raised awareness on infectious diseases and their risks (hepatitis C and HIV/AIDS). The project is aimed at development of cooperation of the hospitals located at the border area in the range of prevention, diagnosis and treatment of infectious diseases.

In order to obtain these goals specialized medical equipment will be purchased for both partner hospitals, international trainings for doctors and nurses will be provided on the subject of management of patients with particularly dangerous infectious diseases, prevention and treatment of HCV and AIDS. Furthermore, screening tests for early HCV detection will be carried out in Poland and Belarus in cooperation with primary care doctors, as well as further diagnostics of patients in both hospitals with the equipment for non-invasive liver examination using the elastography method.

OUTPUT INDICATORS:

Population covered by improved health services [persons] - 1 762 220

Number of medical / prevention research / research / treatment programmes organized - 6200

Number of events supporting the development of public health - 10

Number of participants of the events supporting the development of public health - 440

GRANT AWARDED

1 670 293,83 EUR

The area covered by the project is characterized by high natural values with great biodiversity and extraordinary forestation. Industrial plants on both sides of the border are potential sources of danger. Insufficiently equipped rescue units pose a serious threat to people inhabiting the area as well as to valuable natural heritage areas and sites of cultural heritage. It is important to increase knowledge and experience of rescuers, especially in case of large ecological disasters.

The overall aim of the project EcoChem is to increase the quality of inhabitants' life through joint initiatives aimed at increased security of people, property and environment in the cross-border area of Poland and Belarus. In order to obtain this goal on the Polish side of the border 9 rescue and firefighting vehicles for Volunteer Fire Departments in Siemiatycze District will be purchased while on the Belarusian side of the border 4 rescue vehicles are planned to be purchased. Additionally, joint chemical rescue exercises of firefighters from both sides of the border are planned.

ACRONYM

BADLAP

LEAD BENEFICIARY

Jozef Psarski Mazovian Specialist Hospital in Ostrołęka (PL)

BENEFICIARY 1

Communal Institution of Lviv Regional Council
Lviv Regional Pediatric Clinical Hospital OKHMATDYT (UA)

GRANT AWARDED

1 236 812,25 EUR

The main problem to be solved by the project implementation is low access to modern medical services in the target areas. Due to lack of equipment a part of surgeries are conducted using a traditional method (laparotomy) or patients are directed to hospitals, located in other regions. In Ostrołęka the average waiting time for laparoscopic surgeries is 300 days. In Lviv average waiting time for planned surgeries is approximately one month. As a result of project implementation possibility to conduct laparoscopic surgeries will be increased twice in comparison to the current capacity of the hospitals.

The project aim is to develop a high standard of medical services in the program area, by providing hospitals with medical equipment for laparoscopic and minimally invasive laparotomy surgery, exchange of experience, development of two new methods and creation of Center for Telemedic Consultation. This shall result in shortening of recovery time of patients and raising of their awareness of healthy lifestyle and diet importance in prophylaxis of deceases.

OUTPUT INDICATORS:

- Population covered by improved health services [persons] – 340
- Number of events supporting the development of public health – 16
- Number of participants of the events supporting the development of public health – 360
- Number of new or improved health care services – 2
- Number of modernised/improved medical facilities (e.g. hospitals, hospices etc.) – 2
- Number of modernised/improved medical facilities (e.g. hospitals, hospices etc.) - 14

RESULT INDICATORS:

- Enhanced access to health care and social services [persons]:
- Baseline value – 0
- Target value – 2 654

Old Sambor Central District Hospital (UA)

GRANT AWARDED

1 949 999,84 EUR

The overall aim of the project is to increase the level of health safety of the residents of the Bieszczady Powiat and the Old Sambor region, tourists and users of border crossing due to improvement of accessibility to medical services, increasing the competence of the medical personnel. In order to obtain this goal the modernization of premises of the local hospital in Ustrzyki Dolne, purchase of medical equipment and ambulances for hospitals in Ustrzyki Dolne and Old Sambor are planned.

Modernisation of the emergency room and operating ward in the hospital in Ustrzyki Dolne is aimed at ensuring access to broad diagnostics, new quality of the provided services in the so-called one-day mode and cost effectiveness of the hospital operation. Equipping the hospital in Old Sambor with modern equipment and retrofitting the missing one is a necessary action to ensure the safety of the residents and the tourists coming to Ukraine. Joint conferences, specialized training, working meetings will contribute to raising the quality of medical services, especially in medical first aid

OUTPUT INDICATORS:

- Population covered by improved health services [persons]– 100 000
- Population benefiting from the newly created or improved social services [persons] - 100 000
- Number of purchased medical vehicles - 2
- Number of new or improved health care services – 2
- Number of modernised/improved medical facilities (e.g. hospitals, hospices etc.) - 2
- Number of purchased specialized medical equipment – 243

641 141,51 EUR

The aim of the project is to improve road safety in the cross-border area in Lublin Voivodeship and Volyn Oblast through the expansion and improvement of Rescue and Fire fighting System in the scope of first aid rendered to victims of road accidents by the Volunteer Fire Departments in Poland and the newly created structures of municipal Fire Department in Ukraine. The objective will be implemented by the construction or expansion of the authorized units to provide first aid to the injured in traffic accidents.

As a result of the project's implementation 330 persons from Poland and 100 from Ukraine will be trained, 45 rescue bags will be given to Volunteer Fire Departments in Poland and Ukraine, 260 pieces of special hydraulic equipment will be purchased and 4 Joint field exercises with rescue equipment will be organized. All project activities lead to the prevention of traffic accidents by raising the awareness of the population, reducing the number of deaths by faster arriving at the scene of the accident and first aid, taking out of the vehicle, restoring vital functions, dressing the injured until the medical aid comes in the borderland area.

OUTPUT INDICATORS:

Population benefiting from fire protection measures services as direct consequence of the support [persons] - 293 860

Number of security institutions cooperating across the borders - 47

Number of events concerning emergency situations / safety / security – 6

Number of participants of events devoted to security / safety issues and to emergency situations – 5 250

Number of specialised equipment purchased for security/rescue institutions - 250

RESULT INDICATORS:

Reduction of waiting time for safety and security services response [minutes]:

Baseline value – 30

Target value – 20

GRANT AWARDED

421 357,25 EUR

Health is one of the most important values in life of every human being. This also applies to residents of twin cities: Krosno and Uzhgorod. The overall objective of the project is improvement of physical and mental health among children, young people and adults as well as a growth of public awareness in the range of health by increased access to healthcare services for Polish - Ukrainian border residents.

In order to obtain this goal border medical examinations of school children's will be conducted in Poland, i.e. eye and posture tests, as well as adults will be examined with regard to cardiovascular diseases. At Ukrainian schools the following medical examinations are planned: hearing tests, allergy tests and cardiac examinations. Moreover, it is planned to provide 27 medical offices at schools in Uzhgorod with specialized equipment and to purchase equipment to gymnastics activities for posture correction and phantoms to first aid for 21 educational institutions in Krosno.

Additionally, corrective gymnastics classes for young people with detected dysfunctions of muscular-skeletal disorders will be organized in Krosno.

OUTPUT INDICATORS:

Population covered by improved health services [persons] - 25 718

601 057,08 EUR

The main problem to be solved within project implementation is a low level of vaccination of stray animals and control over their population, high risk of contacting of residents and domestic animals with infectious diseases in cross-border areas of Poland and Ukraine. The overall aim of project is to support the development of health protection through the joint efforts of Vynohradiv and Rzeszów in preventing human and animal diseases across the Ukrainian-Polish border. The project specific objective is increasing of control over the number of stray animals in partner cities through sterilization and identification. The project aims will be achieved by reduction of the stray animals' number in the target area, vaccination of stray animals and dispose biological waste.

Animals Control Centre will be built in Vynohradiv and Shelter for stray animals will be modernized in Rzeszów, both centres will be equipped with purchased equipment. Besides project activities foresee work with volunteers, campaigns for adult population of the two cities as well as for schoolchildren. It is expected to reach 2,500 homeless animals sterilized.

OUTPUT INDICATORS:

- Population covered by improved health services [persons] – 309 000
