By the end of 2023, we have completed the implementation of projects in all four thematic objectives of the **Cross-Border Cooperation Programme Poland-(Belarus)-Ukraine 2014-2020** - HERITAGE, ACCESSIBILITY, SECURITY and BORDERS. In terms of budget, it was the largest programme of the European Neighborhood Instrument at the EU land borders. Its total budget of 201.4 min euro made it possible to finance 158 projects including 10 large strategic projects, 65 regular projects, 76 micro-projects and 7 special direct award projects.

Finalization of the PBU Programme 2014-2020 is an ideal opportunity to analyze and evaluate the effects of the implemented projects. Analysis and presentation of research results can help us to identify what worked properly and what needs improvement .

The first summary of the implementation of the PBU Programme 2014-2020 is presented in the [ex-post evaluation report published on the Program website](#).

The International Conference entitled Capitalization of the Effects of Projects Implemented on the Polish-Ukrainian Border in the EU Financial Perspective 2014-2020 will be devoted to further analysis of these issues.

We would like to consider and discuss the following topics:

1. Local cultural and historical heritage, as well as the promotion and conservation of natural heritage.
2. Accessibility in terms of improvement and development of transport services and infrastructure.
3. Security by supporting the development of health and social services and addressing common security challenges.
4. Borders in terms of efficiency and security, as well as improving border management, customs and visa procedures.
5. Humanitarian aid within the framework of the Poland-(Belarus)-Ukraine Programme, provided to Ukraine in the context of an armed attack.
